2. Tips to generate sign ups using an Autorespondersystem, Listbuilders and Traffic Exchanges

VERY IMPORTANT TOOL:

To start building a list you will need an Autorespondersystem.

Start a \$1 Trial at AWEBER or start a 30 day Trial Trafficwave.

You may also use [Listwire](#)

(Free Autoresponder - **Note:** This service has no Custom Lead Capture Pages Templates)

I am using hosted lead capture pages from my Autoresponder System Traffic Wave!

You can start to use TrafficWave free for 30 Days!

Start your 30 day. [Trafficwave Trial now](#). Only, if you don't have an Autoresponder.

Anyway you'll need one if you want to build a targeted list to your main interest niche product or service.

Many programs online have their own „little Listbuilder“ this means that people who sign up to your affiliate link will be in your downline and YOU the sponsor will be able to send out letters to them.

How often you can do so will depend on your personal membership level to the program.

Being the account holder of for example [TrafficWaves](#) [Autorespondersystem](#) will allow you to send out letters whenever you like and about whatever you like!

Inside your TrafficWave Account you must create a new campaign about your offer.

Then go to your new campaign and proceed to Hosted Capture Pages.

Create your very own one, by adding your own free report, affiliate links or the the link to your thank you page.

2a Learn to write powerful promotional emails

Before you want to try building a list you want to know what to kind of list this will be and what you will have to offer (promote)!

Free traffic, paid traffic, digital products such as ebooks and kindle your own product... the list is long, but at the end of the day you will hope to generate some revenue from this list, right!?!

Know your main interests and find people of the same interest.

This will make working and communicating with your list lots more fun!

If you only want to work as an affiliate (promoting other peoples products search the web for topsellers that have affiliate programs and create your own [domainname](#) and email (list) campaign around this item.

So If your List and topic is Green Energy, name your website [greenenergytips.com](#) or [saveonenergy.com](#)

You'll also need Hosting choose a 2 year hosting plan as google prefers websites that look professional look to last long!

I also do this for green and fair trade items a growing topic with many great niches, micro and nano niches!!

More people want to save on money and energy...

I cover this on jobsonlineplus.com as well.

A great resource to learn writing great marketing emails is

[EMAIL PROMOS EXPOSED](#)

It's free to join and will help you out on this!

You'll learn things like:

*** How to force people to keep reading once they open your email - proven tricks from the world's top copywriters.**

*** How to create bullets that captures people's attention, and makes your offer irresistible!**

*** 6 mistakes people make when writing promos that hurts their results.**

*** ...and so much more!**

[Start your email writing training now](#)

1d. Turning your current and new subscribers into buyers.

TIP1: Giveaway free Advertising and use a paid or [free OTO Script](#) to make additional sales.

This turned out to be the most effective incentive to giveaway to people promoting a product or program online!

I currently promote [ListAdventure](#), because the owner is giving away \$220 in free advertising to all new members.

I only had to add a Listadventure Banner to my [Thank You Page](#) (read on below on how I did create a Thank you page using TEToolbox for free) and if people subscribe to my TrafficWave Lead Capture Page they can pick up their bonus instantly!

I also create my own special pages and blogs using [Hostgator](#) the webhost to my domains: jobsonlineplus.com, oodmusic.info, oodarts.info and autoblogginghowto.info.

I got my domain names from namecheap.

But maybe because TEProfits is pretty much focusing on Traffic

Exchanges, note that TETOOLBOX is popular to many people using Traffic Exchanges, more people turn into real business partners landing on the ThankYouPage I have created using the TETOOLBOX Splashpage maker!

TIP2:

It's good to add another Subscription form to your Thank You Page!
This will stop people from adding fake email addresses.
Simply add your final Landingpage to your first email letter!

Now you will need to promote your new Lead Capturepage to the people online! Search for Places Online (even Offline, but give away the link to your Splashpage;) that will fit your offer.

So, getting SignUps is always about promoting your Leadcapturepage to the best fitting audience!

I am currently getting the most SignUps from Safelists using my custom TrafficWave Hosted Lead Capture Page to my TEProfits Campaign.

[Click Here](#) to see this LCPAGE.

You will find my best converting Listbuilders at [ListHoopla](#) and on my own website www.jobsonlineplus.com

I personally promote TEProfits a lot, because it helps me to earn traffic and money at the same time.

If you are interested in Traffic Exchanges and Safelists to promote your offer you might want to sign up for this free training, too!

Use the SignUp Form on My TW LCPAGE for the Training Letters or [Join The TEProfits Sytem free now](#) from this Textlink.

TIP3: Using more than 5 Trafficexchanges And Safelists daily will boost the referring success!

If you notice good results like I do using the [TrafficWave](#) Lead Capture Pages and you can not afford to become an Active TrafficWave User (\$17.95 per month) you can alternatively

use a free Autoresponder such as Listwire to create at least your SignUp Forms to add to a Splashpage made using the free services of TEToolbox.

If you don't know how to set this up join [TEToolBox](#) free!

Use TrafficWaves or the TEToolBox Trackingsystem to track where you get the most hits and signups!

You can easily track sign ups creating your personal Subscription Landing Page (Thank You Page)

and adding the CONVERSIONTRACKER HTML CODE you will get from TEToolbox into your Thank You Page!

USE [Go-To-Pro](#)

[Learn to Track the Open Rate of your Autoresponder emails](#)

Trafficwave has an internal Trackersystem for links and your Autoresponder messages (emails).

TETOOLBOX will allow you to create your own Splash-Squeeze & Landingpage FREE of any charge!

All Exchange programs above are tested for effectiveness using [VitalViralPro](#)

Discover even more Surfers Choices at [ListHoopla](#), [TEHoopla](#), [TrafficHoopla](#) & [The Affiliate Funnel](#)

Once you have joined all TE'S listed below and you have verified your email with them start to promote your personal/ custom TEPROFITS Splashpage!

YOU SHOULD: Create groups of 4-7 Safelist's & TE'S according to your webconnection speed.

Also create a spreadsheet! Save all details

When to send your next emails for example.

I have a spreadsheet for those I have upgrades for 7 day mailers, 3 day mailers...

Make sure to save each Safelist and TE to your browser (I am working with Firefox) and save 4-7 Safelists & TE's as a group named safelists1, safelists2, TEsurf1, TEsurf2 and so on!

This way you will be able to pick Safelists and surf each group for best results!

Track your best converting TE'S and Safelists and surf these the most of the time you want to spend that day!

Open 3-10 Safelists Emails from 5-10 Safelists and Surf 1-4 hours a day and less if you upgrade or buy credits and much less as soon as you start to make referrals to them;)

From the [TEProfits Free Traffic Report](#) you will learn how effective it is to purchase Traffic Exchanges & Mailer Credits. Upgrading to your favorites is also highly recommended. But do this if you have enough money left in hand (no debts).

I know myself and many others that didn't have to spend any money to make money online!!

But basically from selling Affiliate products from time to time...

If you want to earn residual traffic and money online you will make better having your own website and powerful Autoresponder! Otherwise you will invite more people to someone else's Lists < Businesspartners, Interested Customers)

I wanted to build more than a TE Based business, therefore I am also investing money to my own domains and TrafficWave.

Final **TIPs:**

Create your own Free Report add your success story using Openoffice or any other way to crea a PDF document to place your links into!

Upload it to [InstantBonusPage](#)

Promote your Free Report on a Splashpage.

BUT NOW JOIN THE TE'S And Safelists from [TrafficHoopla](#) , [The Affiliate Funnel](#)

and [VitalViralPro](#) FREE, Add your links Open Creditemails DAILY and SURF TE's DAILY!!!
